INTRODUCTION

Welcome to the Doctoral Program in Counselor Education at the University of Central Florida. This Handbook will be important to your success in the doctoral program as it explains Program policies and procedures, introduces you to various campus services, and provides useful information to assist you as your progress through the Program. Keep it in a safe place where you can refer to it often.

Whereas this Handbook does provide information relevant to the Counselor Education Program, it does not repeat information that can be found in the UCF Graduate Catalog or the Ph.D. Student Handbook for the College of Community Innovation and Education. Students need to be familiar with the information found in those publications as well.

Whereas written materials are helpful and should be referenced as needed, nothing can substitute for personal connections. We strongly encourage you to work closely with the Faculty as careful and thorough planning can prevent problems from arising. Do not hesitate to request help or information from the faculty and staff in the Department of Child, Family and Community Sciences. If you have any questions about navigating the various Faculty members and/or other campus services, the Ph.D. Coordinator will be happy to assist. You are the reason we are here.

Enjoy your new journey! Embrace every opportunity.

You are can do this!

Dr. M. Ann Shillingford-Butler
Counselor Education Ph.D. Program Coordinator

DESCRIPTION OF THE PROGRAM

The University of Central Florida offers the Ph.D. Degree with a specialization in Counselor Education. The program emphasizes the training of professional counselor educators and counselors who will function in a wide variety of settings and who will have competence in teaching, research/scholarship, and supervision. Program objectives are centered on a primary goal, which is the education of outstanding counselor educators prepared to assume leadership roles in multicultural settings that provide instruction, research/scholarship, and supervision.

Many counselor educators work in educational settings such as colleges, universities and schools. In addition, counselor educators may work in administrative or supervisory capacities in mental health agencies and other human services agencies. The counselor educators’ role in these settings varies, but professional activities include researching in the counseling field, program evaluation, teaching graduate students in counseling, supervising counselors and/or counseling students, and providing service to professional organizations, academia, and schools or community agencies.

In many states, members of the counseling profession have legal recognition. Some states, such as Florida, recognize the profession of counseling with licensure. Students in our doctoral program may be eligible to obtain such licensure. For example, students may wish to become Licensed Mental Health Counselors (LMHC) or Licensed Marriage and Family Therapists (LMFT). These credentials cannot be obtained through this graduate program because they generally require post-master’s degree supervision and work experience outside an academic setting among other requirements.

The primary objective of the doctoral program is to enable students to develop specific areas of expertise that will prepare them for additional employment and leadership roles in the counseling profession. It is expected that students will develop a research agenda and a potential for scholarly publication. Students are also encouraged to evaluate their own specific needs and to take advantage of available resources for professional and personal development. For example, a student with a master’s degree in mental health or community counseling may wish to take courses in school counseling to broaden his or her scope of knowledge as well as be more marketable in employment opportunities. Some of the resources available to students include elective courses, workshops, institutes, personal study, and graduate research assistantships with faculty.
Ann Shillingford-Butler, Ph.D., Associate Professor, Doctoral Program Coordinator

Dr. Ann Shillingford-Butler is an Associate Professor in Counselor Education, with a specialization in professional school counseling.

Bryce Hagedorn, Ph.D., Professor, Counselor Education Program Coordinator

Dr. W. Bryce Hagedorn is a Professor in Counselor Education, the Counselor Education Program Coordinator, and an ACA Fellow with specializations in addictions and mental health counseling.

Dalena Dillman Taylor, Ph.D., Associate Professor, CMHC Track & Play Therapy Coordinator

Dr. Dalena Dillman Taylor is an Associate Professor in Counselor Education, with specializations in play therapy and counseling children and adolescents.
Glenn W. Lambie, Ph.D., Professor and Associate Dean

Dr. Glenn W. Lambie is a Professor in Counselor Education, the Associate Dean for Graduate Studies, and an ACA Fellow with specializations in professional school counseling and family therapy.

Gulnora Hundley, Ph.D., Associate Lecturer

Dr. Gulnora Hundley is an Associate Lecturer in Counselor Education with specializations in mental health counseling and psychopharmacology.

Dayle Jones, Ph.D., Associate Professor

Dr. K. Dayle Jones is an Associate Professor in Counselor Education, with specializations in mental health counseling and assessment, diagnosis, and treatment.
Kent Butler, Ph.D., Professor

Dr. S. Kent Butler is a Professor in Counselor Education and an ACA Fellow with a specialization in multicultural counseling and development.

J. Richelle Joe, Ph.D., Assistant Professor

Dr. J. Richelle Joe is an Assistant Professor in Counselor Education, with specializations in professional school counseling.

Sejal Barden, Ph.D., Associate Professor, Marriage, Couples, and Family Therapy Track Coordinator

Dr. Sejal M. Barden is an Associate Professor in Counselor Education, with a specialization in marriage, couples, and family therapy.
**Stacy Van Horn, Ph.D., Associate Lecturer, School Counseling Track Coordinator**

Dr. Stacy Van Horn is an Associate Lecturer in Counselor Education, with a specialization in professional school counseling.

**Viki Kelchner, Ph.D., Assistant Professor**

Dr. Viki Kelchner is an Assistant Professor in Counselor Education, with specializations in marriage, couples, and family therapy and professional school counseling.

**John Super, Ph.D., Lecturer**

Dr. John Super is a Lecturer in Counselor Education with a specialization in marriage, couples, and family counseling.
Melissa Zeligman, Ph.D., Assistant Professor

Dr. Melissa Zeligman is an Assistant Professor in Counselor Education, with specializations in trauma and community mental health.
GOAL STATEMENT

The goal of the Doctor of Philosophy in Counselor Education is to education and train counselor educators in teaching, research/scholarship, and supervision for careers in higher education. Students shall have developed an identity as counselor educators and will show evidence of professional leadership potential. Students will understand and utilize skills of reflective practitioners by being able to articulate this philosophy and practice the skill of reflecting in writing, in one-on-one supervision, and in group settings. Students will show evidence of skilled teaching using appropriate technology, clinical counseling practice, supervision skills, consultation skills and research. Students will be multiculturally competent in teaching, research, supervision, and clinical practice.

PROGRAM OBJECTIVES

Professional Leadership and Identity
1. Students will show evidence of involvement in local, state, regional or national professional organizations in leadership roles.
2. Students will become members of relevant professional organizations and demonstrate knowledge regarding professional affiliations and accreditation standards.
3. Students will show evidence of knowledge of ethical and legal issues in counselor education.
4. Students will demonstrate an understanding of the process of an importance of change in the evolution of clinical practice and systems of induction.

Reflective Practitioner
1. Students will demonstrate the ability to reflect both personally and professionally on their counseling, teaching, consulting, and supervision practice through analysis of their writing.
2. Students will demonstrate the ability to facilitate reflection in others through teaching, consultation, and supervision or use of reflecting teams.

Teaching
1. Students will develop and administer lesson plans in a classroom setting.
2. Students will be able to deliver workshops and trainings.
3. Students will design syllabi for a variety of counselor education courses.
4. Students will demonstrate knowledge of advanced counseling theory and techniques.
5. Students will show knowledge of and utilize technology in the classroom.
Clinical Counseling Practice

1. Students will show evidence of knowledge of methods and models of appraisal.
2. Students will show evidence of the ability to (a) assess clients, (b) diagnose and treat clients in individual, group, and family counseling sessions, and (c) provide consultation.
3. Students will provide videotape or other evidence of action counseling sessions, which demonstrate the ability to work with clients from a variety of developmental levels and cultural backgrounds.

Supervision

1. Students will demonstrate knowledge in the theories, techniques and ethics of supervision.
2. Students will show evidence of the ability to supervise counselors in training in group, individual, couples, family, and group counseling.
3. Students will demonstrate the ability to supervise individuals from different, cultural, ethnic, racial, backgrounds and with differing world views, sexual orientation, and religious/spiritual beliefs.

Research

1. Students will show knowledge of and the ability to conduct qualitative research projects relevant to counselor education.
2. Students will show knowledge of and the ability to conduct quantitative research projects relevant to counselor education.
3. Students will show knowledge of and the ability to conduct survey research projects relevant to counselor education.
4. Students will demonstrate ethical conduct in research.
5. Students will demonstrate an understanding of how research can be utilized to inform public policy.

Multicultural Competence

1. Students will demonstrate the ability to work effectively in a counseling setting with clients who are culturally different showing the attitudes of respect and giving evidence of knowledge of the specific cultural differences.
2. Students will demonstrate the ability to focus attention to individual and population differences that affect counseling practice that may arise in teaching or supervision including cultural, racial, ethnic, regional, world view, religion, spirituality, or those of sexual identity and orientation.
3. Students will demonstrate an understanding of societal evolution and the role of advocacy
ADMISSION REQUIREMENTS AND PROCEDURES

Eligibility for admission to a doctoral program should be limited to superior students who have demonstrated intellectual ability, high achievement, and adequate preparation for advanced study and research in a chosen field. Minimum university standards for admission to a doctoral program may be found in the UCF Graduate Catalog. The following are specific admissions requirements for acceptance into the doctoral program in Counselor Education.

1. Baccalaureate Degree and Graduate Degree from an accredited College or University
2. A Cumulative Grade Point Ratio of 3.0 on a 4.0-point scale (or its equivalent on another computational scale) for all graduate work completed prior to application.
3. Two letters of recommendation as follows:
   a. one from a former graduate instructor
   b. one from a former or present employer
4. Graduate Record Examination Scores on the General Aptitude sections of:
   a. 150 or better on the Verbal section
   b. 150 or better on the Quantitative section
5. Resume or Vita documenting work experience and related achievements and/or activities.
6. Strongly preferred, minimum of two years of clinical work experience in the field of counseling or related area.
7. A Letter of Intent which includes the following:
   a. Long term goals in terms of benefits (to self and society).
   b. Barriers to achievement of those goals.
   c. Skills or competencies needed to achieve the goals.
   d. If admitted, how long you expect to be in the program before you complete your degree.
   e. If admitted, how you plan to meet the residency requirement.
8. Interviews: After all applications are examined and screened by the Counselor Education faculty, specific applicants are requested to attend an interview with the faculty. These interviews are usually scheduled in January of each year.

Exceptions to the above requirements (item 2-6) are made only in special cases where sufficient evidence is presented to warrant consideration. In such cases the applicant must submit a letter of petition, accompanied by supporting evidence, to the Counselor Education Faculty, which will review the petition and make a decision. The faculty may require an interview, additional testing or remedial work for the applicant. A report for each case will be included in the applicant's application folder and will document the reasons for denial or for waiver of the criterion.

All interviewed applicants will be notified in writing or electronically (typically within two weeks) as to acceptance or rejection from admission into the counselor education program.
Mandatory Attendance of Counselor Education Orientations

All students accepted into the Counselor Education doctoral program must attend the Counselor Education Orientation held at the beginning of their first semester in the counseling program. It is mandatory that all newly admitted students attend this orientation. Information presented at the orientation will include the following:

1. Type and level of skill acquisition required for successful completion of the program.
2. Subject matter to be covered.
3. Basis for evaluation.
4. Training components that encourage self-growth or self-disclosure as part of the training process.
5. The type of supervision settings and requirements for required internship experiences.
6. Student and supervisee evaluation and dismissal policies and procedures.

PHD students are also expected to attend and participate in events related to the training of master’s students. See chart on page 14-15.

**PLAN OF STUDY FOR THE COUNSELOR EDUCATION Ph.D. PROGRAM**

**Filing a Program of Study Form**

The program of study (i.e., required course work) will be specified by the student’s program area and approved by the college. The plan of study, which may vary from student to student, should be formulated jointly by the student and the doctoral committee/advisor. Changes in the program of study may be made at any time by the doctoral committee.

FACULTY & STUDENT ENGAGEMENT

Doctoral students collaborate with program faculty in teaching, supervision, counseling practice, research, professional writing, and service to the profession and the public.

Doctoral students collaborate with faculty in the following ways:
1. Students are required to co-teach (under supervision) master’s level courses in counselor education.
2. Students are required to supervise (under supervision) master’s level students in practicum.
3. Students may engage in various projects with faculty in the area of counseling practice. In addition, they are required to demonstrate their counseling skills by counseling live clients in an advanced practicum class.
4. Students’ graduate assistantships are often tied to grant and a variety of research projects. All students are encouraged to work with program faculty on various research projects.
5. Students are required to submit a publishable paper to a refereed journal, which starts in the MHS 7700 Literature & Leadership in Counselor Education course and finishes in the IDS 7500 Seminar in Educational Research. Throughout their coursework, students are encouraged to write and submit publishable research papers both individually and in collaboration with program faculty.
6. During the program, students are required to conduct a minimum of one presentation at a state, regional, or national conference. Students are encouraged to attend and present at many of these conferences and are frequently co-presenters with faculty.
7. During the program, students are encouraged to provide (a) service/leadership to the profession by joining professional counseling associations and (b) service to the local community by offering in-service trainings at schools or workshops at local agencies.
**Faculty Mentors**

All incoming PhD students will be assigned a faculty mentor. Mentoring takes many different forms and is subjective to the needs to the mentee as well as mutually agreed upon expectations between mentor and mentee. Below are basic guidelines for the mentor/mentor relationship.

---

**Mentor Role**

*Provide support for mentee’s professional growth and development.*

*Help mentee solve problems rather than give directions*

*Offers encouragement and cheering but not “how to” advice*

*Be a good listener*

*Provide authentic, relationship-based mentoring*

*Maintain confidentiality*

*Focus on character rather than competence*

*Be bold with optimism and quiet with cynicism*

*Be loyal to mentee*

*Be available to mentee*

*Be present*

*Ccollaborate with mentee to develop shared meaning of the mentee/mentor relationship (e.g., goals, needs, expectations, availability)*

**Mentee Role**

*Be open to feedback*

*Be willing to ask for advice*

*Be ready to listen*

*Share goals and needs*

*Sschedule time with mentor*

*Share where you are struggling*

*Ccollaborate with mentor to develop shared meaning of the mentee/mentor relationship (e.g., goals, needs, expectations, availability)*

**What does a mentor not do?**

*Serve as a counselor or therapist*

*Tell mentee how to do certain things*

*Use mentee as a graduate assistant*

*Assume mentor will automatically be selected as Comps/Dissertation Chair*

---

COMPREHENSIVE EXAMINATION

**Completion of Qualifying Examination and Candidacy**

To enter candidacy for the Ph.D., students must have an overall 3.0 GPA on all graduate work in the program and passed all required examinations. The purpose of the Candidacy Examination is for the student to demonstrate knowledge of the field, including theory, bibliography, and research methodology. Examinations must be completed prior to admission to candidacy. The student and major adviser will schedule examinations. The Associate Dean for Graduate Studies and Research must be notified of the date and location of the exam 30 days in advance. All Ph.D. candidates will be required to complete two examinations:

- Research in the Specialization – 48 hour written take-home examination (see below)
- Specialization – 3-hour oral examination.

Students must be enrolled in the university during the semester the examination is taken. The Counselor Education Program stipulates that all students enrolled in the doctoral program must successfully complete a comprehensive written and oral doctoral qualifying examination prior to admission to candidacy for the doctoral degree. As a CACREP accredited doctoral program in Counselor Education, doctoral students are expected to demonstrate mastery of (a) counseling theory, (b) research/grant-funding, (c) theory of teaching & learning (d) supervision, and (e) leadership and advocacy. Committees are encouraged to include aspects related to the student’s research interest (e.g. Multiculturalism, School Counseling, Policies in Higher Education) within each question. The Counselor Education Program’s Doctoral Comprehensive Examinations are intended to be a fair and rigorous assessment of the student’s mastery of important areas of professional knowledge and requires each doctoral student to demonstrate the ability to interpret, apply, analyze, synthesize, evaluate and integrate concepts, ethical principles, policies, research, research design, strategies, techniques, and values derived from his or her graduate preparation, readings and practice.

The intent of the doctoral comprehensive examinations are to assess a student’s mastery of the primary factors of counselor education (e.g., research, scholarship, & grant funding [research design, data collection and analyses, ethical practice and policies], teaching & learning [e.g., theories of learning and teaching, research relating to counselor development and learning, and accountability], supervision [e.g., theories and models of supervision, research relating to counselor supervision and development], counseling theories [e.g., theories of counseling, research relating to counselor effectiveness with diverse clients in various settings], and leadership & advocacy [e.g., theories and models of leadership and advocacy, and multiculturalism and research related to leadership & advocacy in counseling practice, research, and teaching]). Additionally, the doctoral comprehensive examinations serve as a gate-keeping role to evaluate a student’s overall readiness to become a doctoral candidate, as evidenced by personal (social-emotional, developmental) and professional (academic, cognitive, and skills acquisition) dispositions.

The counselor education doctoral student’s dissertation committee will develop five (5) written comprehensive examinations questions and will following the completion guidelines stated below.
The Take Home Exam Protocol

1. The student and comps chair will determine the dates and time for completion of the exam.
2. The student will be emailed all questions at the same time and will have 48 hours to compose a response to each question.
3. At the conclusion of the 48-hour time limit, the student must submit their answers in one email as separate documents, each titled appropriately (e.g., “Last name – Teaching Response”) to the Program Assistant and the dissertation committee chairperson.
4. Submitted responses will be reviewed through i-Thenticate to check for plagiarism. Once this process is complete, the dissertation committee chairperson will send the final documents out to the Committee, who will have 2 weeks to read and review the answers before meeting for the oral portion of the exam. The student is free to bring his/her own set of answers to that oral defense, as well as other notes to organize their thoughts.

If the committee and chairperson are satisfied with the doctoral student’s written comprehensive examination response(s), the oral defense will proceed on the scheduled date. On the other hand, should the committee and/or chair not be satisfied with the written response(s), they may ask the student to rewrite their answer(s) and resubmit these revised responses to the dissertation committee. Should this situation occur, the oral defense date will need to be rescheduled to allow adequate time for the committee to evaluate the re-submitted response(s).
**Dissertation Process**

Doctoral programs prepare students to generate new knowledge for the profession of counseling through research culminating in dissertations appropriate to the field of counseling.

Students are required to write a dissertation as their culminating research experience in the Ph.D. program in counselor education. They are required to take 24 credit hours in Dissertation.

**Dissertation Advisory Committee Selection**

*The Doctoral Committee*

Until students pass the qualifying process and reach candidacy as a Ph.D. student, the Counselor Education faculty will be their doctoral committee. The semester in which the student plans to take comprehensive exams the student must select a doctoral committee this can be the dissertation advisory committee.

*Selecting a Dissertation Advisory Committee*

Doctoral students must have a Dissertation Advisory Committee prior to the Candidacy exam. The Committee will consist of a minimum of four members. At least three members must be qualified core faculty members from the counselor education program at UCF, one of whom must serve as chair of the committee. One member must be from either outside the student’s program area at UCF or outside the university. The UCF Graduate Ph.D. Handbook recommends at least five (5) committee members as a cautionary measure in the event a member “leaves the university, becomes ill, or for some other reason cannot continue on the dissertation committee.” An adjunct or visiting faculty may not serve as the chair but may serve as a co-chair. One of the co-chairs must satisfy faculty qualifications for serving as chair of a dissertation advisory committee. The other co-chair must satisfy the minimum requirements for serving as a member of a dissertation advisory committee.

The Dean or designee of the College must approve committee membership. All members must be in fields related to the dissertation topic or have expertise appropriate to the topic or methodology. The Department chair for each member of the committee in the College of Education must approve of the faculty members service on the committee. The Office of Graduate Studies reserves the right to review appointments to a dissertation advisory committee, place a representative on any dissertation advisory committee, or appoint a co-chair. The student may request a change in membership of the dissertation advisory committee.

All members vote on acceptance or rejection of the dissertation proposal and final dissertation. The dissertation proposal and final dissertation must be approved by a majority of the committee.
Residency Requirements

Each student is expected to complete two continuous semesters in full-time graduate student status after acceptance into a doctoral program. Doctoral students must be registered a minimum of 9 semester hours during this time. The Counselor Education Faculty strongly recommend that students study full time for their time in the program.

Time Limitations on Degree Completion

Students have seven years from the date of admission to the doctoral program to complete the dissertation. No courses taken since the original program entry date at UCF may be older than seven years and used in the program of study.

Continuous Enrollment

Students who do not maintain continuous enrollment (missing enrollment at the university for a period of two semesters) must file for readmission to the university, although seven-year is measured from when the student was first admitted to the program. To file for readmission, contact the Office of Graduate Studies by fax (407-823-6442) or e-mail (graduate@mail.ucf.edu). Readmission decisions are individually made, based on such factors as space in the program, reasons for the break in graduate education, progress in the degree program, among others. The Counselor Education program requires the student to be enrolled each semester. If this is not possible, it is required that the student petition the faculty for an exception. This can be done by writing a letter to the Counselor Education Ph.D. program Coordinator explaining the need to not enroll for a semester or summer session. The faculty will act on the request.

Doctoral students admitted to candidacy must continuously enroll in three or more hours of dissertation course work each semester until the dissertation is completed.

Grade Point Average and Course Grade Requirements

Students are required to maintain specific grade requirements. A minimum of a "B" average for all courses attempted is required. If a student accumulates grades of "C+" or lower in any four courses taken at UCF within a seven-year period, the student will be disqualified from obtaining a graduate degree. Consult the UCF Graduate Catalog for more information. In addition, the Counselor Education faculty reserves the option to set the standard of a grade of "B" or better in required Counselor Education courses to proceed in the program.

Application for Graduate Degree

Graduate Students should file an Intent to Graduate form with the graduate program coordinator by the last day of registration for the term of graduation. If the student does not graduate in that term, a new form must be filed at the beginning of registration for the term of anticipated graduation.
The UCF Golden Rule

It is recommended that students obtain a copy of the UCF Golden Rule Handbook. This handbook contains all the university policies that govern student conduct at UCF.

Process of Evaluation and/or Dismissal

All students are routinely evaluated by the entire faculty using an online version of the Counselor Educator-in-Training Assessment Scale (CETAS). Students are evaluated on clinical, professional, and interpersonal functioning. Individual meetings will be scheduled at the end of each semester with the student, mentor, and academic advisor.

For students of concern to the faculty, the process of evaluation is as follows:

- A faculty member who is concerned about the behavior or performance of a student completes a Continuous Evaluation Form. This form is kept in the student’s file.
- The Counselor Education faculty will meet to review the Continuous Evaluation Form and discuss the concerns of the reporting faculty member.
- Out of this discussion, three options are considered:
  - No recommendations are made to the student.
  - Student is recommended for remediation (to be determined by the faculty)
  - Student is recommended for dismissal from the program.
- If options 2 or 3 are decided upon, a meeting is scheduled with the student. This meeting may include the entire selection committee or the student's advisor. Faculty's concerns and recommendations are clearly explained to the student. The student will be allowed to discuss his or her thoughts, feelings, and reactions.
- Should remediation be recommended, the student will be presented with a written document stating the exact actions the student must take for remediation. This recommendation will clearly specify what changes in behavior are expected and what time limits are operative. It will also include a statement to the effect that a failure of remediation may result in dismissal from the program. (This constitutes "due process" - the student is advised of his or her shortcomings, is given an opportunity to correct them, and is made aware of the possible consequences of failure.)
- If there is insufficient improvement within the specified time period, the student will be so advised and given a period of time (2 weeks) to prepare her/his case for rebuttal.
- If the decision is for dismissal, it will be presented to the student in writing, summarizing the nature of the problem, opportunities for remediation and the basis for the final decision. The student will be offered an opportunity to facilitate his/her change into another more appropriate area through career counseling available at the UCF Counseling & Testing Center.
- The committee and/or the student are free to consult with other faculty, professionals or perhaps the campus attorney to assist in making a more objective, informed decision.
- Results of all meetings and consults will be documented and kept in the student's confidential file.
- The student may choose to comply with recommendations or use the appeals process already in place at the university.
**Dismissals from the Program**

It is the general policy of the doctoral program in Counselor Education Program to recommend to the Graduate Dean that students who have earned more than two grades of C or lower be dismissed from the program.

The College of Education Faculty have adopted a fitness to practice policy that outlines reasons and procedures for dismissal from graduate programs in the college. These are contained as appendices to the Ph.D. Handbook for the college.

Students may also be dismissed for overt violations of the current ACA Ethical Codes and Standards of Practice or for "personal unsuitability for the profession." Examples of behavior which would lead the faculty to professionally judge a student "personally unsuitable for the profession" include but are not limited to:

- consistent inability to assess problem situations in a professional or educational setting and determine how to negotiate/compromise or otherwise resolve the situation.
- consistent inability to recognize personal boundary/power issues which inhibit or prevent the student from learning appropriate professional behavior/counseling skills.
- consistent inability to work as a team member.
- consistent inability or refusal to participate, without advisor consultation, in learning activities designed to promote and improve the student’s self-understanding, self-analysis skills and interpersonal skills.

**Appeals Process**

Students may appeal grades or dismissal from the program by following the "Appeals Within the Disciplinary Process" section of UCF "The Golden Rule - a handbook for students".

**Financial Aid Information**

Limited financial aid opportunities in the form of grants, loans, assistantships and fellowships, are available for graduate students. Students should apply for all assistance programs that interest them. Student are automatically considered for University and College Fellowships at the time they make application. More than one award is sometimes possible and other awards are available from sources in the state and nationally both for first and or second year studies as well as special programs for dissertation research. For more detailed information about sources of financial assistances, check with the UCF Financial Aid Office, fellowship clearing houses or special interest groups or associations. Check with your advisor or other faculty and staff members in the Department and/or University for employment possibilities associated with grants or graduate assistantships.

**Tuition Waivers**

Tuition waivers are available to all Ph. D. students who are on a graduate assistantship. Waivers cover full tuition for nine semester hours of study not including fees i.e. health fee. Tuition waivers are not typically available in the summer. For out-of-state students, tuition waivers are provided for out-of-state tuition in the first two semesters then are provided at the in-state rate thereafter. It is wise to establish residency as early as possible and by May the year before if you can so that the first summer classes will be at the in-state rate.
**Independent Study**

Students who wish to request an independent study may submit a letter of petition to their faculty advisor. The advisor will submit the request to the Counselor Education faculty at the next faculty meeting. The faculty will then vote on approval of the request. Students are allowed a maximum of two independent studies during their program of study.

**Transient Study**

Courses undertaken by UCF students at other accredited institutions may be transferred to the University subject to the following regulations:

1. The University is not obligated to accept any credit from another institution unless the student has obtained prior approval of the department in which she/he is enrolled and the Dean of the Graduate School. A Graduate Transfer Credit form should be completed and filed in the Registrar's Office.
2. No transfer credit will be accepted below B level.
3. The student must request that an official transcript be mailed to the Registrar's Office upon completion of the course. The Graduate Transfer Credit form for this purpose is available in the Registrar's Office.

**Transfer Credit from Other Institutions**

Transcripts are evaluated in the Graduate Admissions Office and results are provided to the applicant and to the department offering the graduate program. Determining the applicability of transferred credits to graduate program requirements is the responsibility of the department offering the program. General rules governing transfer credit:

1. At the time of acceptance into the Counselor Education Program up to Thirty transfer hours of credit may be accepted from another accredited institution from the master's degree upon approval of the student's advisor and the Dean of the College of Education and the Graduate Dean.
2. The grade in any course accepted for transfer credit must be the equivalent of that awarded for outstanding (A) or satisfactory (B) work as defined by UCF.
3. Courses accepted for transfer are subject to the same time limitation as coursework taken in residence.
4. To be considered for transfer credit, courses must have been undertaken at a regionally accredited institution.
5. Courses in which credit is accepted must be appropriate for approved University programs and curricula in which the student is enrolled.
**Contributions to the Profession**

All Ph.D. students in the Counselor Education program must make at least one professional presentation at an appropriate meeting of a professional organization and/or publish an article in a refereed journal prior to graduation. Students have an opportunity to prepare and submit a presentation proposal during the MHS 7700 Literature & Leadership and IDS 7500 courses. Evidence of this activity must be provided by the student and placed in the student's file in the Counselor Education office. Typically, students who are selected to make their presentations are requested to submit a copy of the program title page and the program listing in which their name and program title appear for verification as soon as possible after the presentation in made.

**Professional Organizations**

Doctoral students participate in professional organizations and associations, including the American Counseling Association (ACA), and/or its branches and divisions, and other associations appropriate to their career goals. They are encouraged to seek out leadership roles in these organizations, and program faculty are instrumental in helping students find leadership positions.

Doctoral students are required to make at least one professional presentation at a state, regional, national, or international conference. Students often present programs individually or in collaboration with program faculty. Students may apply for support to the Graduate Office for support to present at national or international conferences.

Doctoral students are encouraged to seek appropriate credentials (if they do not already have them), such as licensure as a mental health counselor (LHMC), licensure as a marriage and family therapist (LMFT) or certification as a school counselor. In addition, they are encouraged to be certified as a National Certified Counselor (or other appropriate certification from NBCC), and to see other certifications that are appropriate to their career goals.

**Student Associations**

The Counselor Education program offers two student organizations for graduate students. All students in the Counselor Education Program are encouraged join and actively participate in these organizations:

- **Chi Sigma Iota (CSI).** This is an academic honorary society specifically in the area of graduate programs in Counselor Education. Chi Sigma Iota offer workshops and professional development activities for the counseling community and undertakes philanthropic projects and offers opportunities to serve the Orlando community.
- **Counselor Education Doctoral Student Organization (CEDSO).** This organization is the primary communication link between faculty and students. It organizes professional and social activities for students.
- **Professional Associations.** All students must join the American Counseling Association (ACA) and/or one of its Divisions in order to be bound by the association's Ethical standards and...
in order to obtain group malpractice insurance. You may call 1-800-347-6647 (ACA) to obtain an application form. Counselors and student development professionals should belong to professional associations after they earn their degrees if they are to stay current in the field and keep abreast of new trends and issues. Active participation in professional associations is vital to professional success. At a minimum, each graduate student is expected to join appropriate associations. Membership dues are usually less for students and members receive professional newsletters, journals and announcements of professional activities. Students are also encouraged to join Association for Counselor Education and Supervision (ACES) and the Southern Association for Counselor Education and Supervision (SACES)

**Multicultural and Other Interest Groups**

- Christians as Helpers
- Counseling Skills Group
- Counselor Advocating for Military Personnel (CAMP)
- H.E.A.R.T (HIV Education, Awareness, and Research Team)
- M-POWER
- Spanish-Speaking Counseling Skills Group
- P.L.A.Y. (Play Leaders Advocating for Youth)
- FAM

**Counseling Related Conferences**

- American Counseling Association (ACA; March/April)
- Association for Counselor Education & Supervision (ACES; October/Odd Year)
- Southern Association for Counselor Education & Supervision (SACES; Oct./Even Year)
- European Branch of ACA (EB-ACA; International/September)
- American School Counselor Association (ASCA/June)
- Florida Counseling Association (FCA; November)
- American Educational Research Association (AERA/April)
- American Association for Colleges of Teachers Education (AECTE/Feb.)
- Association for Moral Education (Nov.)
- Cross-Cultural Counseling & Education Conference for Research/Action/Change (Feb.)
- British Association for Counselling & Psychotherapy (BACP; May)
- Faculty Women of Color in the Academy (April)
- UCF Counseling Conference (Jan)
DOCTORAL PRACTICUM AND INTERNSHIP

Practicum

Doctoral students must complete an advanced Practicum (MHS 7801) during their first semester of study. Practicum consists of a minimum of 100 hours (of which 40 hours must be providing direct counseling services) in the Community Counseling and Research Center.

- Supervision is provided by a counselor education program faculty member who has relevant certifications and/or licenses, knowledge of the program’s expectations, requirements, and evaluation procedures for students, and relevant training in counseling supervision.
- Supervision occurs weekly and consists of (a) one hour of individual and/or triadic supervision and (b) 90 minutes of group supervision.
- Doctoral students must obtain individual professional counseling liability insurance prior to seeing clients (more information below).

Internship

Doctoral students must complete advanced Internships that total a minimum of 600 clock hours. These 600 hours include supervised experiences in teaching, supervision, and leadership/advocacy and occur during the following courses: MHS 7808 (Internship in Supervision) and MHS 7840 (Internship in Counselor Education).

- Group supervision occurs on a regular schedule and is provided by a counselor education program faculty member (i.e. the instructor of MHS 7808 and MHS 7840).
- Individual and/or triadic supervision occurs on average of one hour per week and is provided by a counselor education program faculty member. These “site supervisors” consist of the following individuals:
  - The supervisor of the Master’s practicum class that the doctoral student is co-supervising (for the Supervision Internship)
  - The instructor of the Master’s course that the doctoral student is co-teaching (for the Teaching Internship)
  - The instructor of the MHS 7497 Advanced Multicultural class (for the Leadership/Advocacy Internship)
  - Doctoral students must maintain individual professional counseling liability insurance during the Internship (more information below).

Liability Insurance for Supervised-Activities

All doctoral students must obtain professional liability insurance prior to enrolling in MHS 7801 Advanced Practicum (which occurs in the first semester) and maintain this insurance throughout their time in the program. Insurance is available through many venues and students are encouraged to obtain it through membership in the American Counseling Association, the American Mental Health Counseling Association, or the American School Counseling Association. Students must produce evidence of insurance coverage to the instructor in each course in which service delivery activities are expected.
Non-Supervised Counseling Activities of Graduate Students

The position of the Counselor Education faculty is that students enrolled in Counselor Education programs should not engage in unsupervised counseling activities. This policy applies to any student enrolled in a degree program or in a non-degree program of study approved by the faculty. The policy does not apply to part-time students who engage in counseling under the auspices of a school or agency in which they are employed or who are Licensed Mental Health Counselors or Licensed Marriage and Family Therapists.
CAMPUS RESOURCES

UCF Community Counseling and Research Center: https://ccie.ucf.edu/ccrc/
Since 1975, the Counselor Education Program has conducted a community counseling and research center in conjunction with MHS 6800: Counseling Practicum and, more recently, MHS 7901 Advanced Practicum in Counselor Education. The counseling center is available free of charge to the community (excluding enrolled UCF faculty, staff, and students). Graduate students render counseling services to a variety of clients as a part of their coursework and under the supervision of the Counselor Education faculty. Counseling services include individual, couples, family, and group counseling.

University Counseling and Testing Center: https://caps.sdes.ucf.edu/
The University’s Counseling & Psychological Services (CAPS; Counseling Center Room 201) offers a professional staff of psychologists and counselors to assist students through educational, vocational, and career counseling; and personal, social, relationship, marriage and family counseling. The Center presents special programs throughout the year, including training in relaxation and coping skills, self-hypnosis training, stress reduction training and group psychotherapy. All Center services are free to UCF students.

UCF Writing Center: http://guides.ucf.edu/writingcenter
A peer-consultation resource for UCF students. There are several types of consultations and the first step is to determine which type is right for you; face-to-face or online chat. It is important to remember that these meetings can take place at any stage in the writing process, from brainstorming to final editing. Once a type of consultation has been decided on, the next step is to make an appointment. Students may schedule appointments through TutorTrac or by phone. Once an appointment has been made, students participate in an individualized 45-minute meeting with a trained writing consultant (small group appointments are also available). Writers can also work with other materials such as handouts on various facets of the writing process and computers.
Students can make an appointment or drop in any time we’re open. They should bring details about the assignment along with notes and any drafts. Global issues (purpose, thesis, organization, support, etc.) will be addressed first during a consultation.

UCF CASTLE Lab: https://ccie.ucf.edu/lser/projects/
The Computing and Statistical Technology Laboratory in Education (CASTLE), is located in TA 305. It is a computer lab available to students and faculty for data analysis. The lab computers are equipped with various quantitative and qualitative software packages.

UCF Global: https://global.ucf.edu/
UCF Global provides support to international students, scholars, and professions at UCF with the tools needed to be successful through campus learning, community diversity programs, research, and global partnerships.
COMMITMENT & SELF-CARE

The Counselor Education faculty will be available to work closely with you in developing your knowledge and skills in counseling, teaching, supervision, research, and leadership/advocacy. It is important that you are available to work with the faculty if you wish to get the most out of both the formal and informal learning opportunities in your doctoral program. Because the demands on your time during this intense process are great, it is very important to do a thorough self-assessment. Important questions to ask yourself include:

- Do I have the time and resources I need to successfully complete the program?
- Are my interpersonal relationships with family and friends such that they will not be overly stressed by my emersion into doctoral study?
- Intrapersonally, am I in a place in my life to devote the time and effort that will be needed to grow academically and professionally in this experience?
- Do I have the appropriate exercise/nutrition/meditation/religious/spiritual regimens to deal effectively with self-care and support?
- Do I have a support system or the skills to develop a support system needed for undertaking this quest?

The faculty are both supportive and demanding. If you are going to devote the time and resources needed for three years, we want to ensure that you are successful. We look forward to spending a great deal of time and energy working, learning, growing and laughing together with you over the next three years. We are committed to supporting your growth and development as a counselor educator and we look forward to the time after graduation that we work together as colleagues in the field.

Famous Quotes Contributed by Faculty

“Wherever you are, be all there” Jim Elliot

“There is more than one way to do the right thing” (n.d.)

“Progression not Perfection” (Paul Schwager)

“It’s ok not to be ok” (n.d.)

“Without the struggle, there are no wings”

“The only thing necessary for the triumph evil is for good men to do nothing” (Edmund Burke)

“Let us remember: One book, one pen, one child, and one teacher can change the world” (Malala Yousafzai)

“How wonderful it is that nobody need wait a single moment before starting to improve the world” (Anne Frank)

“We may have all come from different ships, but we’re in the same boat now” (MLK, Jr.)
I, ________________________________ , have received and read this
Doctoral Student Name (print)

Counselor Education Doctoral Program Handbook. I agree to abide by the policies, procedures
and ethical standards of the Counselor Education program stated in this document.
